### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

A. Cancel claims 9 and 10, as being drawn to a non-elected invention.

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: Applicant claims a process of producing a WN barrier film using a vacuum CVD apparatus, wherein the feed gases consists of either  $WF_6$  or  $W(CO)_6$ , a nitrogen containing gas selected from  $N_2H_4$ ,  $NF_3$ ,  $N_2O$ , and  $NH_3$ , an auxiliary reductive gas selected from  $SiH_4$ ,  $H_2$ ,  $Si_2H_6$ ,  $PH_3$ , and  $B_2H_6$ , and wherein  $O_2$  gas is introduced into the vacuum CVD atmosphere when forming the WN. Meikle et al. (WO 96/17104) does teach the formation of WN by a hot CVD process using  $WF_6$ , a nitrogen containing gas, and an auxiliary reductive gas, but fails to teach the use of  $O_2$  gas in the feed gases while forming the WN layer. The prior art does teach the process of oxygen stuffing an already formed WN layer. Applicant's response addresses this by demonstrating structural and electrical characteristic differences between the different materials produced by the two different processes. Applicant has demonstrated the critical nature of the reaction components and process characteristics to both the structure and

properties of the finished WN barrier film. In conclusion, the examiner has not found any art either singly or in combination that suggests that one of ordinary skill in the art at the time of the invention would have been able to anticipate and/or practice the claimed invention, without undue experimentation.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
